To
The Deputy Secretary to the
Government of Mysore
Mazrai Department.
Bangalore -

Sir,

Adverting to your docket No. 465/10-95 dated 25th October 1900, forwarding for enquiry and report a petition from Seeniwasa Mudaliar, Shanbhag of Sree Uttaradi Matt at Hole-Narsipur, complaining that a portion of the Matt is being dismantled for the purpose of opening out a new road, I have the honor to state that the construction of the road in question was sanctioned by me with

with the view of improving the Sanitation of the town of Hole-Narsipur.

2. I inspected the town myself and found it quite necessary to open out a road there as a large quantity of filth and dirt was being accumulated at the place endangering public health. After the road in question was opened the locality is clean and the congestion at that place has been considerably relieved.

3. The portion of the mutt which is required for the purpose after the usual Government notification No. 11360 - DT 65 - 96 dated 14th April 1902 published in Government Gazette of the 26th April 1900, does not form any part of the mutt building as is stated in the petition under reference but is on the

of the hittal attached to the Mutt. The acquisition of the Mutt land has not in any way affected the usefulness of it, but has on the other hand rendered habitation in and about the Mutt agreeable and healthy. When I had been at Hole-Narsipur before opening out the road in question, I explained the above circumstances and told the authorities of the Mutt that an equal extent of land would be acquired and given to the Mutt on the other side of it whereby the Mutt premises would form a square and to this they agreed-

4 – The petition received with the docket under reply is herewith returned-

L. Anantasami Rao Esquire B.A.

Deputy Secretary to the
Government of Mysore
Muzrai Department
Bangalore.

Sir,

Adverting to your docket No: 2443/M.7 10-95 dated 29th July 1902 and subsequent reference in docket No: 1675/M.7 10-95 dated 18th February 1903, calling for report on the petitions of Sreenivasa Murthacha Shanbhogue of the Sri Uttaradi Mutt at

at Hole-Narsipur, I have the honor to submit herewith for reference and obliging return, a plan of the Hole — Narsipur Town showing the premises of the mutt and its Sorroundings. From the enclosed plan, it will be seen that the mutt and its precincts — including the backyard taken as a whole, were situate on an irregular strip of land as marked clearly in blue pencil. The Sorroundings of the mutt were disagreeable owing to the accumulation of filth in several parts and the congestion of houses along the road newly opened to the west of the mutt (nos. 35 and 36 in the plan) rendered the Sorroundings insanitary. The main Street shown in the plan running to the east of the mutt was the only road towards

1361

which the mutt opened and the free passage of air was obstructed on 3 Sides of the mutt by the houses there. On my visit to Mole-Marsipus, in company with the Assistant Surgeon of the District and the Amildar I inspected the mutt and its premises and thought it necessary to remove the congestion of the locality and to render the habitation in and about the mutt agreeable and healthy. Accordingly I took steps to get a road opened behind the mutt (Vide road marked Nos: 35 and 36) and measures are also being taken towards the acquisition of the houses and lands marked 9, 10, 11 and 12. The road marked as 32 and 33 which runs through the Compound of the old Taluk Cutcherry building

building and a portion of the backyard of the mill was also opened out with the object of improving the sanitation of the locality and the road thus formed to the North of the mill is a continuation of the main street in fort and it is proposed to connect this road with the Hole-Bazaar Road and a portion of the rampart wall has been dismantled with this end in view (Vide No: 8 in the plan). It is this road that is complained of in the petition under report as separating the kitchen and the well from the main building of the mill. I beg to submit here that the old kitchen and the old well in question were situate far from the main building and more than about 50 yards distant from it. It is

also ascertained that the old well had been abandoned, there being no water in it, the well near the temple (No. 13 in the plan) being long in use by the mutt people for drinking purposes. As to the old kitchen it is understood that the building fell into ruins more than 20 years ago and there is another kitchen now in use within the mutt building. The allegation of the petitioner that mud and debris have been thrown against the walls of the mutt so as to cause damage, is not true and nothing has been done, so as to cause damage or inconvenience to the mutt.

2. Now, looking to the mutt and its surroundings as they are at present I beg to submit that with the formation of the roads to the North and the West of

of the mutt, the main Street running to the east of it and with the proposed acquisition of houses and lands Nos. 9, 10, 11 and 12 and opening out of a road in that direction, the mutt premises form a Square with broad road all round — the congestion of the locality being thoroughly removed. The portion of the backyard belonging to the mutt (No: 38) that has been separated from the main building may, with considerable advantage be used for stabling purposes and being aloof from the main building may be used also to accommodate the Cow caste retinue when the Swamy has occasion to visit the mutt.

3. It may be added also that with the formation of the road along the houses and lands shown as Nos. 9, 10, 11 and 12, there would exist to the well near the temple,

now in use by the Mutt becomes easier.
The advantages of the road now
opened are manifold and cannot
be exaggerated. It has not only
removed the congestion of the locality
but has rendered the distance from
the fort to the bathing ghat easy
besides tending to save distance
to the Kalgudi road from the fort
by avoiding the necessity of a circuitous
route and admitting the free Western
breeze into the town.

4 The Mutt has therefore been
now placed in an advantageous
situation and no inconvenience
has been caused as alleged by the
petitioner. On the other hand, the
Sanitation of the Mutt has been
greatly improved by the formation
of the road complained of and the

Mutt

Mutt has been highly benifitted.

5. Next, as to the allegations contained in the petition received with yours docket No: 1675/mf 10-95 dated 18th February 1903 I beg to submit that there was a Ganesha in the old Taluk Cutcherry building which was pulled down in view to open out a road there. The Ganesha was then removed to the Eswarangudi and remained there till recently without worship, in spite of the fact that there are Inam lands assigned to the said Ganesha. It was proposed to construct a building and the same has since been completed in the site of the old Taluk Cutcherry that remained after a certain portion thereof was taken up for the road and the building is not intended for a dwelling house as stated in the

petition

petition under report. I have also inspected this building and its construction has not in any way affected the mill.

6 — The petitions received with your objects under reply are herewith resubmitted.

I have the honor to be
Sir

Your most obedient servant

N. Maudy
for Deputy Commissioner and
President of Municipalities
Hassan District.

To

Murzai

Read:-

Petition Regd. No. 507, dd 25th October 1900, from Sreenivasa Murthachar, Shanbhogue of the Sri Uttaradi Matt at Holé-Narsipur, complaining of the formation of a new road through the Matt buildings at the place.

And,

Correc. endorsement with letter No. 611, dated 17th June 1904, from the Deputy Commissioner, Hassan District, reporting on the above.

Order thereon

The petitioner Sreenivasa Murthachar complained ~~that~~ stating that a new road was being formed through the Matt

Spl. H 1584 6/15½.
Enc. one plan.
6/

by dismantling a portion of
the Matt's premises forming the
kitchen and hittalu (compound)
with a well in it and thereby that
the remaining portion of the
Matt had been rendered unfit
for the purposes of the Matt.

2. The Secretary to Govt
in the Muzrai department visited
Holé-Narsipur and inspected
the institution on the 13th and
14th instant. September 1904.
During his inspection he observed
that a broad road with high
banks had been ~~forced~~ cut through
the hittalu of the Matt building,
thereby separating the main building
from ~~the major~~ a portion of the hittalu

containing a well and a kitchen which last however was in ruins In making this road, not only had the Matt land been taken up but also a portion of the Taluk cutcherry buildings, and an idol of Ganesa consecrated in it had been removed to a small house by the side of the new road. He also observed that the new road was made in continuation of a broad road already in existence thereby affording a free passage to the narrow streets behind the Matt and opening out that part of the town Although the road in question was thus a work of improvement to the town and

and to the matt also in the latter having two broad roads on two sides of it, still there was the disadvantage to the matt of having its well cut off from it, the approach to it having been rendered very difficult owing to the high banks of the road which had to be descended and ascended before reaching the well.

3 Under the circs brought to notice, the Govt observe that it was highly irregular on the part of the Deputy Commr. Mr. D. Devaraj Urs | to have interfered with the private rights of the matt in spite of the previous sanction of Govt

~~the~~ of the Govt orders to the contrary: ~~etc~~, however, the opening out of the road in question was undertaken with a view to improve the town and its sanitation, the Govt deem it undesirable to ~~direct~~ revert to the former state of things, and they accordingly direct that from the funds of ~~the town Municipality of~~ the Hole-Narsipur town Municipality the Matt be compensated for the cost of constructing a new well near the Matt Kitchen and a compound wall on the side of the new road, and that in lieu of the Matt land taken up for the new road, the ~~houses~~ situated behind the Matt be acquired ~~under the land acquisition~~ ~~Regulation~~ as recommended by

by Mr Devaraj Urs in the last
of his communications read above
and made over to the institution.

~~The Deputy Commissioner is therefore~~
requested to furnish this Office
with a Declaration Statement
~~for~~ of the houses in question for
~~publication in the Off. Gazette.~~
The Chief Engineer will be requested to furn Govt
~~and also~~ with estimates for the
construction of the well and the
compound wall to the matt,
for the sanction of Govt.
